**The Yoke That Frees**

A yoke was a device made to fit around the necks of oxen to keep them together as they pulled plows or carts. Christ asked His followers to take His yoke upon them, to learn of Him, and serve Him. Christ knew that to be His follower one must be willing to labor. The harvest was plentiful, He indicated, but laborers were few.  
To be a yoke fellow with Christ, one must be willing to serve whenever one's talents can best promote the cause of the kingdom of God. God's kingdom will never become truly real if Christ's followers are on a leave of absence. But if we take up Christ's yoke and labor for Him, we find rest for our souls.
